

中華基督教會灣仔堂基道小學

CCC Wanchai Church Kei To Primary School

Support for Non-Chinese Speaking Students:

1. Our school offers an intensive Chinese supplementary course: **"After-School Chinese Learning Classes"**
2. Our school organizes **Chinese reading classes** to increase their opportunities to **engage with the language**.
3. Non-Chinese-speaking students participate in relevant learning activities together with local students for **inclusive communication**.
4. We regularly meet with the parents of Non-Chinese-speaking students to **provide guidance and suggestions**.
5. **"International Exchange @ Keito"**
The event allows students to **experience different cultures** and wear traditional Chinese or ethnic costumes, **broadening their international perspectives**.

School-based Learning Support Activities

1. Finish all homework in after-school care class
2. Provide students with Reading Pen to help learn Chinese
3. Bilingual notices provided
4. Interpretation services provided for Parents' seminars and workshops
5. Organize frequent community visits and activities for the Non-Chinese Speaking students to get them integrate into our community

Learning traditional Chinese characters:

1. Free Cantonese learning class
2. Free learning materials provided

Internationalization of English Proficiency

TOEFL Junior® Test

中華基督教會灣仔堂基道小學
CCC Wanchai Church Kei To Primary School

**Fluent Flyers
at KeiTo**

Helping students achieve
new **Heights!!**

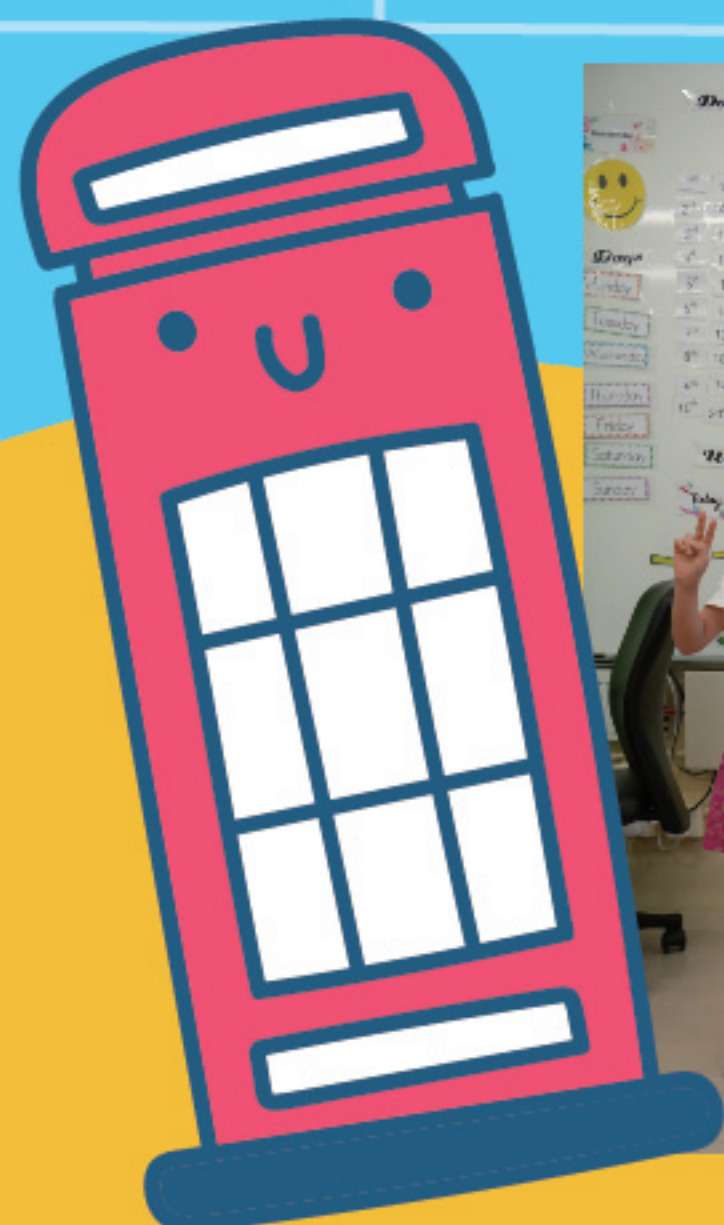

Students' English Proficiency reaches international level:

2022-2023 Outstanding TOEFL Junior® Tests

- 42% of our school test takers attained F.1- F.3 level (Listening, Language Usage, Reading Comprehension)
- 64% of our school test takers attained F.1- F.3 level (Speaking)

2023-2024 Outstanding TOEFL Junior® Tests

- 50% of our school test takers attained F.1- F.3 level (Listening, Language Usage, Reading Comprehension)

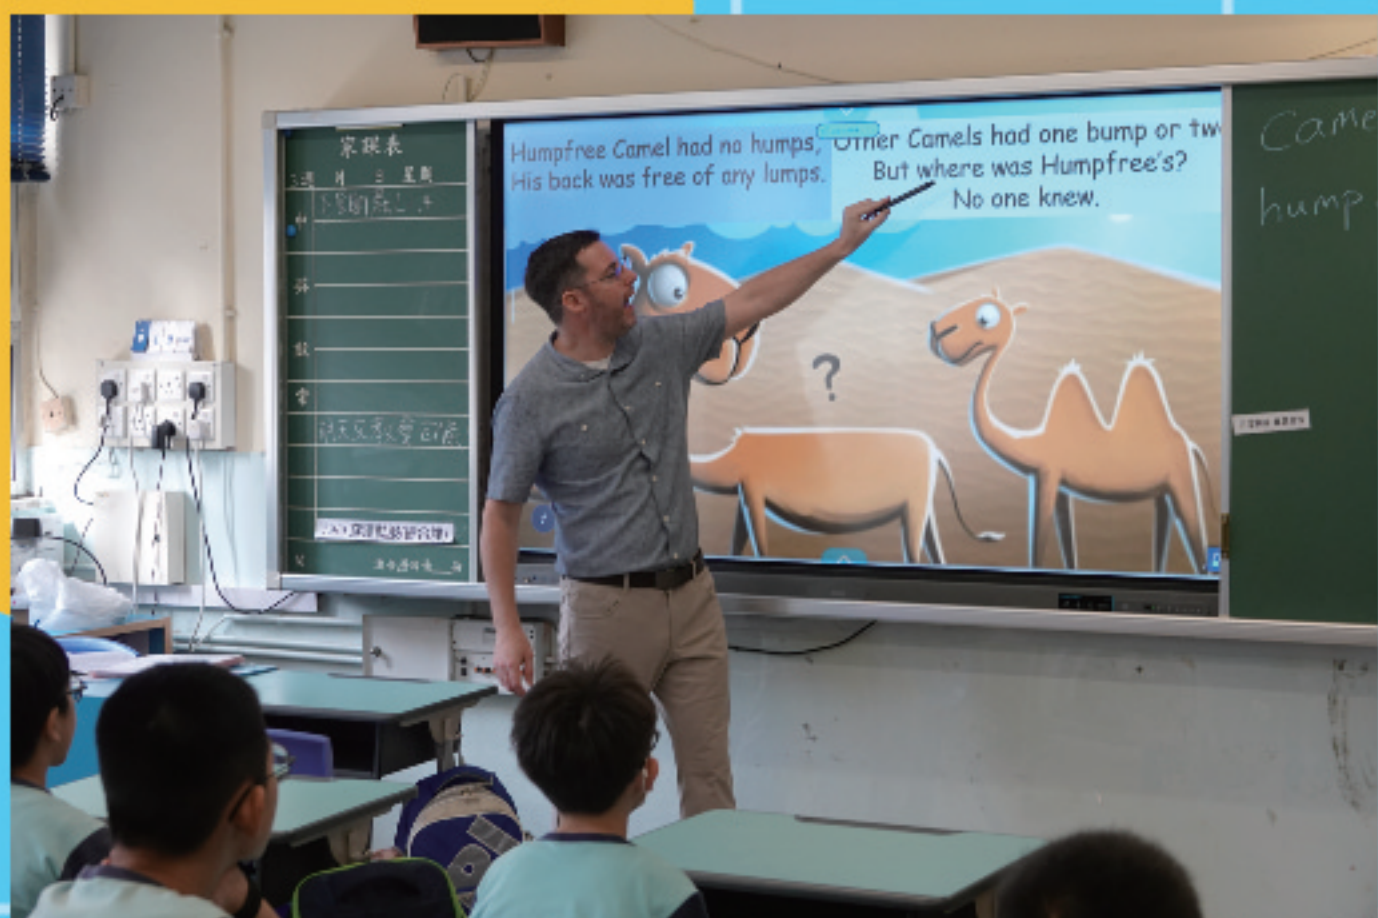

P1-P3 PLPR/W and P4-P6 Guided Reading
NETs, LETs and TA implement differentiated instructions in classes for facilitating students with various learning abilities to learn reading strategies, develop their oral ability through critical thinking and engage in extended writing tasks.

PLPR/W - Students amass a catalogue of their written work from P1 through to P3 in a personalised folder.

Enhance students' reading skills by:

- Differentiated reading groups
- Guided reading sessions
- NET shared reading on values

School-Based English Curriculum

To build students' confidence in learning and using English, our school organizes the following English activities at campus:

- School-based booklets designed for different learning abilities.
- Tailor-made Booklets integrating reading, writing, speaking and cross-curricular materials.
- Cultivate reading culture with the help of e-reading platform and NETs' authentic book sharing.
- Organize life-wide learning activities: Learning in authentic thematic contexts.

Joyful Learning Leads to Results

Students' talents and English proficiency are shown in the following activities:

- English Week
- Little Explorers
- English Ambassadors
- Let's Sing
- Basketball English
- English Drama
- Recess and lunch English activities with our NETs

OKAY

YES

On annual **STREAM Fun Day**, students

- Engage with various creative technology-themed products through hands-on activities
- Design, reflect and refine their works

Pull-out Experiences

OLE Program

(e.g. Innovative Technology Inventor, Advanced Programming Class)

Whole School Participation

(Cross-curricular Learning, School-Based Programming Lesson, STREAM Fun Day)

Kei To@ STREAM consists of **three levels of curriculum**:

- School-based, OLE program and the after-school gifted program

STREAM Study Tour to Singapore

- Broaden students' horizons about its technology development and environmental measures
- Facilitate exchanges with local primary schools
- Communicate in multiple languages there
- Emphasizes the importance of respect
- Embrace its multiculturalism

International Exchange Study Tour

Little Astronaut Training Program: A Rocket Launch Tour in Wenchang, Hainan

- China's space technology progresses rapidly.
- The selection of payload experts in HK in 2021 marked a significant milestone
- Our school has joined the Aerospace Education Network
- We become one of the twenty HK Primary schools, with a focus on prioritizing resources towards the development of aerospace technology

To cultivate students' skills of collaboration, critical thinking and problem-solving and creativity, STREAM is strongly promoted at school:

- Organizes STREAM interest groups and Extra-curricular activities
- Encourage students to participate in Inter-school STREAM activities and competitions.

General Studies @ STREAM at school:

- GS plays a leading role
- Integrate STREAM elements into GS curriculum
- Design Cross-curricular curriculum to promote STREAM education, enable students to apply interdisciplinary knowledge and generic skills to tackle everyday challenges
